MAGAZINE PORTRAIT

For over 40 years CHIP reports about the digital revolution, which has not ended with the Smartphone, LTE and Windows 10. It has just started: The digitalization has expanded into all spheres of our lives and having a lasting impact on them.

CHIP covers the digital revolution from every angle

CHIP tracks the innovations in the R&D labs and presents the technological visions of each major industry and branch. At the same time, the CHIP Test Center examines how well these visions are translated into concrete products that are available on the market. Hands-on projects illustrate the optimal use of these products, as well as solutions on emerging issues which arise from a user's perspective.

Additional ad specials available on request.

Prices apply for the booking of at least the entire domestic circulation.

Smaller booking units, e.g. according to Nielsen areas or federal states, are possible. For these, an additional 20 % per thousand will be charged.

A split-run advertising surcharge of 20 % applies for bookings exclusively in the subscription edition.

Minimum booking for all ad specials: 20,000 copies.

The publisher reserves the right to reschedule domestic circulation bookings.

*Circulation excl. subscriptions is made up of the combined print runs for the marketing segments newstand, subscription, in-flight magazines and others.

Calculation basis: The calculation basis is the planned circulation or IVW quarterly report upon order confirmation, exclusive of the respective e-paper copies.

All tariff ad specials are eligible for discount and count towards the annual agreement commitment.

Order and cancellation date: See "Schedule & Topics Print" page; due to limited availability, we strongly recommend booking as early as possible.

Delivered quantity: The delivered quantity is based on the print run listed in the IVW Quarterly Report current at order confirmation plus 2 % surplus. In order to react to circulation fluctuations at short notice, we recommend contacting our Creative Services (see "Your Personal Contacts" page) one more time before going to press.

Please find the **delivery address and deadline** on the respective order confirmation. An incoming goods inspection does not take place in the printing plant.

Conditions of delivery: Ad specials must be delivered in accordance with the guidelines of the Bundesverband für Druck und Medien (German Association of Print and Media), and be clearly marked with the name of the publication and issue. Material must be delivered, carriage paid, to the address where it will be processed.

Proviso: Should any processing problems arise, completion of the circulation takes priority over ad special processing.

AdSpecial Portal: Binding technical information on Ad Specials and information on deadlines, samples and delivery for the participating objects is available for download at adspecial-portal.de.

Stickers: The basis is a 1/1 carrier advertisement.

Sample products: An additional postal fee applies to samples and objects over 2.5 mm thick.

Samples must be presented by the closing date at the latest. For sample products 50 samples, all others at least five are to be sent to Creative Services (see publisher information).

AD PACKS

The reduced combination special price for the combination of advertisements is based on a comparison of separate advertisement bookings. To this end, the advertisements of an advertiser with an identical product/creation in the same format must appear in all magazines in parallel issues.

The combination special price cannot be guaranteed for special placements and can only be applied to the formats outlined here.
